## A Guide to Pepe Twitch Emotes Used in Chat

### Highlights

- 💡 Pepe the Frog has become a staple of internet meme culture.
- 💡 There are several Pepe-based Twitch emotes which have become quite popular over the last few years.
- 💡 Here is a guide to some of the most popular Pepe Twitch emotes.

[Pepe the Frog](#) was originally a character in a comic by Matt Furie. Furie first brought Pepe to life in the comic strip **Boy's Club** in 2005 and after gaining popularity on sites like **MySpace** and **4chan** in 2008, Pepe has become one of the most popular (and controversial) memes in internet culture today with many variations and even 'rare' Pepe illustrations. The meme eventually made its way to Twitch and various Pepes were made into Twitch emotes that are still quite popular on the platform today. In this article, we look at some of the most popular Pepe Twitch emotes and what they mean.

MonkaS

The Twitch emote is Pepe the Frog with bulgy sweaty eyes and an anxious expression. The emote is widely used during **tense moments**, for example during close tournament games. The emote has multiple variants including MonkaW and MonkaThink. The origin of MonkaS on Twitch chat can be traced all the way back to 4chan in 2011. There was a thread submitted in /lit/ that year which featured the emote and it was later added to the FrankerFaceZ Twitch extension.

Find out more about MonkaS [here](#).

#### MonkaW

Courtesy: BTTV

MonkaW is another popular Twitch emote available on Better Twitch TV (BTTV) and is a variation in the 'Monka' Pepe meme series. **MonkaW** is basically a more zoomed-in version of monkaS which is in turn based on Pepe the Frog. MonkaW has some controversial origins, find out more about MonkaW [here](#).

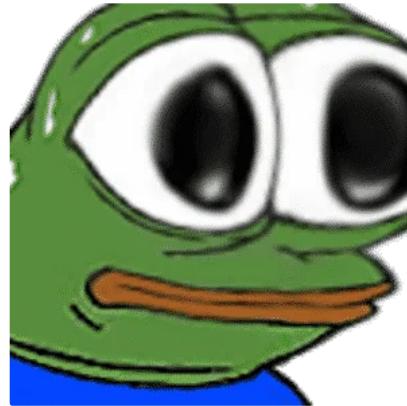

#### MonkaHmm

Courtesy: StreamerFacts

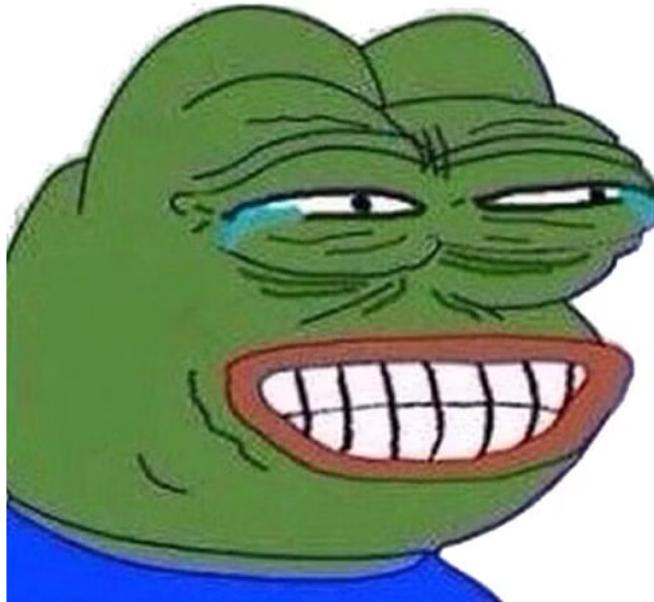

MonkaHmm is another variant of the super-popular Monka Pepe series of Twitch emotes and is used to express 'thinking' or even suspicion. Among Us streamers saw MonkaHmm spammed in chat, when trying to figure out the impostors. According to [SteamerFacts](#), the emote was first uploaded to BTTV in 2018.

MonkaGIGA is a variation of the series available on FrankerFaceZ or BTTV, and is generally used to express fear or shock.

PepeLaugh features Pepe with a wide mouth grin and squinted, teary eyes, similar to the crying laughing emoji. The emote is also popular with Forsen fans. [PepeLaugh emote](#) is also often associated with the phrase 'Here it comes'.

Pepehands is a variation available on BTTV, and shows Pepe crying with his hands held out in front of him. It is usually associated with sadness or misery.

## POGGERS

Courtesy: Know Your Meme

According to [Know Your Meme](#), POGGERS is a Twitch Emote featuring an illustration of Pepe the Frog with a **surprised expression**, which is used to express excitement or celebration in a similar manner to the PogChamp emote. Like MonkaS, it is one of Twitch's popular emotes using the frog character.

## COGGERS

Courtesy: BTTV

Poggers is a Pepe-themed Twitch emote of Pepe with a surprised facial expression used to express excitement or pleasant surprise, which was inspired by the PogChamp emote. COGGERS and POGGERS can be used interchangeably. Find out more about Coggers [here](#).

## Feelsbadman

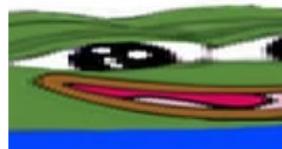

Courtesy: Know Your Meme

Feelsbadman is used to express disappointment or sadness. A happy variation in this series is Feelsgoodman which denotes happiness, the opposite of Feelsbadman. Both these emotes are available on BTTV. The phrase 'feels bad/good man' is also used by Twitch streamers to express the respective emotions.

A screenshot of a Twitch stream interface. At the top, there's a banner with the text "A Guide to Pepe Twitch Emotes Used in Chat". Below the banner, there's a user profile picture and a "LOGIN" button. A navigation bar features links for DOTA, CS:GO, MOBILE ESPORTS, ESPORTS, BLOCKCHAIN GAMES, and INDIA HUB. The main content area displays two large images of the Pepe the Frog meme: one showing a sad expression (Feelsbadman) and another showing a wide-open mouthed smile (Widepeepohappy).

Courtesy: Stream Scheme / Streamer Facts

### Widepeepohappy

Courtesy: SlangLang

WidepeepoHappy is part of the BTTV FrankerFaceZ collection and features a squished version of Pepe with wide eyed and a wide open-mouthed smile. Due to the compressed image it gets the name 'Widepeepohappy'.

### Copium

Courtesy: Twitter

Copium is a combination of two words, namely cope (a way of dealing with difficult emotions) and opium (a sedative drug). The copium emote shows Pepe breathing using a mask connected to a 'copium' air tank. It generally refers to the [use of the fictional drug to deal with failure and loss](#). Sometimes the emote is also used sarcastically to poke fun at others. Find out more about Copium [here](#).

#### Pepepains

Courtesy: Reddit / FinishTheNuzlocke1

[PepePains](#) is a BTTV emote which shows Pepe making a face of disgust, usually used to express cringe at something.

#### Controversy About Pepe Memes and Twitch Emotes

Initially, Pepe the Frog became an extremely popular internet meme and Twitch emote but was later [co-opted and morphed by certain alt-right political groups to propagate anti-semitic messages](#). Since Pepe's rise in popularity among neo-nazi fringe groups, the meme has been added to the Anti-Defamation League's Hate Symbol Database as a hate symbol. In the streaming community, the emote is not seen as controversial, but using it in other forums might not always be ideal.

💡 League of Legends players can now enjoy the crossover between hit-game Wordle and their favorite game via web-based game called LoLdle.

💡 This article will guide you through the LoLdle Quote of the day puzzle.

Web-based word guessing game Wordle, created by software engineer Josh Wardle, took the world by storm and was the most talked-about game in the early part of 2022. Since its publication, numerous people on the internet spanning continents have been sharing and celebrating their every day wins within the game. Each day, a five-letter word is chosen and the players have to guess the word correctly within six tries. Since the game is straightforward and simple to play, many people have been inclined to create similar ones. League of Legends players have their own version of Wordle called the LoLdle. It is one such spin-off game based on Wordle and Riot Games' flagship title League of Legends. LoLdle includes League of Legends champions and their quotes.

There are four game modes in LoLdle and they are as follows:

- Classic: Guess the champion and every try gives specific properties for clues with green, red, and orange boxes
- Quotes: Guess with an in-game quote of a champion
- Ability: Guess with the icon of a spell
- Splash: Guess the skin with a cropped section of a splash art

Though LoLdle has a low entry barrier, the puzzles are sometimes tough and they can hit players with uncommon champion quotes, abilities, and some hard-to-recognize art. This article will guide you through the LoLdle Quote of the Day for 6th April: Oh, I was born to ruffle feathers.

## Today's LoLdle Quote

6th April: Oh, I was born to ruffle feathers.

*On 6th April, the LoLdle quote is, "Oh, I was born to ruffle feathers." The champion who said this is Xayah.*

## Highlights

- 💡 Kuki Shinobu is set to return in Genshin Impact patch 3.6 on Nilou and Nahida's banners.
- 💡 She fits well in Aggravate and Hyperbloom teams thanks to her Elemental Mastery-based damage and healing.
- 💡 The other 4-stars units in her banner are Dori and Layla.

When Kuki Shinobu was first released in Genshin Impact, players were not too pleased with her kit but things changed after the release of Dendro. She is strong in Dendro teams and can serve you well with a full Elemental Mastery build. She works fairly well in [Eula](#) and Taser teams as well. Here is a rundown of all of Kuki Shinobu's Talents, Constellations and Passives in Genshin Impact 3.6.

## Genshin Impact 3.6 Kuki Shinobu: Should you pull?

Kuki Shinobu is worth having on your account if you want to play Aggravate and Hyperbloom teams. While Kuki might not be the best option available when it comes to building an Aggravate team, she is a go-to unit if you want access to healing. She dishes out a decent amount of damage and has almost full uptime on her skills. She also fits Eula teams quite well and can serve as a Superconduct enabler while also healing Eula as she focuses on dealing damage.

Unlike 5 stars, there is no guarantee that you will be able to snag a 4-star of your choice. There are instances of people spending over a hundred wishes and not getting the 4-star that they need so you should never pull for a low rarity unit unless you are okay with getting the featured 5-star or using up your pity.

## Genshin Impact 3.6 Kuki Shinobu: Talents

**Elemental Skill - Sanctifying Ring:** Creates a Grass Ring of Sanctification at the cost of part of her HP, dealing Electro DMG to nearby opponents.

### Grass Ring of Sanctification

Follows your current active character around. Deals Electro DMG to nearby opponents every 1.5s and restores HP for active character(s) within the ring's AoE based on Kuki Shinobu's Max HP. The HP consumption from using this skill can only bring her to 20% HP.

**Elemental Burst - Gyoei Narukami Kariyama Rite:** Stabs an evil-excoriating blade into the ground, creating a field that cleanses the area of all that is foul, dealing continuous Electro DMG to opponents within its AoE based on Shinobu's Max HP. If Shinobu's HP is less than or equal to 50% when this skill is used, the field will last longer.

## Genshin Impact 3.6 Kuki Shinobu: Constellations

**C1 - To Cloister Compassion:** Gyoei Narukami Kariyama Rite's AoE is increased by 50%.

**C2 - To Forsake Fortune:** Grass Ring of Sanctification's duration is increased by 3s.

**C3 - To Sequester Sorrow:** Increases the Level of Sanctifying Ring by 3. The maximum upgrade level is 15.

**C4 - To Sever Sealing:** When the Normal, Charged, or Plunging Attacks of the character affected by Shinobu's Grass Ring of Sanctification hit opponents, a Thundergrass Mark will land on the opponent's position and deal AoE Electro DMG based on 9.7% of Shinobu's Max HP. This effect can occur once every 5s.

**C5 - To Cease Courtesies:** Increases the Level of Gyoei Narukami Kariyama Rite by 3. The maximum upgrade level is 15.

**C6 - To Ward Weakness:** When Kuki Shinobu takes lethal DMG, this instance of DMG will not take her down. This effect will automatically trigger when her HP reaches 1 and will trigger once every 60s. When Shinobu's HP drops below 25%, she will gain 150

## Genshin Impact 3.6 Kuki Shinobu: Passives

**Breaking Free:** When Shinobu's HP is not higher than 50%, her Healing Bonus is increased by 15%.

**Heart's Repose:** Sanctifying Ring's abilities will be boosted based on Shinobu's Elemental Mastery:

- Healing amount will be increased by 75% of Elemental Mastery.
- DMG dealt is increased by 25% of Elemental Mastery.

**Protracted Prayers:** Gains 25% more rewards when dispatched on an Inazuma Expedition for 20 hours.

## Wet Job Part 4 Quest in Escape From Tarkov Explained

Sadakshi Kalyan Ramun

Updated On: 05 Apr 2023, 06:40 PM

### Highlights

- 💡 Wet Job Part 4 quest is a part of the Wet Job questline which has five tasks in total
- 💡 Here's everything you need to know about this Peacekeeper task.

The Wet Job Part 4 quest is a part of the Wet Job questline which has five tasks in total in Escape from Tarkov. It is given by trader Tadeusz Pilsudski also known by his alias Peacekeeper. Naturally, finishing the first three will let you unlock Wet Job Part 4 quest. It is a pick-up task that takes place on Shoreline, the fourth map that was added to the game. Players should note that this quest is required to access the Kappa Secure Container.

Having said all this, here's everything you need to know about this Peacekeeper task.

### Wet Job Part 4 Quest: How to Complete

Players should note that they must be at least level 14 to start this quest. When you take it up, Peacekeeper says that they ran Artyom through our database. He reveals that he most likely lived in the health resort after the conflict and may have been connected to TerraGroup, but it is unconfirmed. *"The nature of their joint operation with the fisherman is also not completely clear, but, considering how secretive their meetings were, I'm pretty sure it's some kind of military tech. We need to find where exactly Artyom's quarters were, the info could be in the list of tenants, which has to be in the administration office, if it is still intact, of course. Find those documents and bring them to me," he adds.*

The objectives of the quest are as follows:

- Obtain a list of the resort's tenants on Shoreline
- Hand over the list of tenants to Peacekeeper

Keep in mind that you need to get your hands on the Sliderkey Flash drive with the 'found in raid' status and hand it over to the Peacekeeper. The Sliderkey Flashdrive can only be found if the quest is active and once picked up, it gets transferred to your quest item inventory. If you fail to extract with it, you will end up losing it.

For this quest, you need to head to the Admin building on Resort on Shoreline. Enter through the center and climb the stairs, turn right, and climb one set of stairs again to turn left. Walk down the corridor and you must see a white, closed door. If it is open, you are not the first one to get to the location.

Once you are in that room, you will notice the flash drive on the table. This flash drive contains the list of the resort's tenants that Peacekeeper needs.

### Rewards for Wet Job Part 4 Quest

The rewards for this quest are as follows:

- +8,300 EXP
- Peacekeeper Rep +0.03
- 1,700 Dollars
- 1,785 Dollars with Intelligence Center Level 1
- 1,955 Dollars with Intelligence Center Level 2
- 1× Shoreline Health Resort plan map

## Genshin Impact 3.6: Dori Talents, Constellations and Passives

Abhimannu Das

Updated On: 05 Apr 2023, 06:01 PM

### Highlights

Genshin Impact's Dori is an Electro support who can heal allies and also restore energy.

THIS SITE USES COOKIES TO ENSURE YOU GET THE BEST EXPERIENCE

[ACCEPT](#)   [Read More](#)

 She will be available on Nahida and Nilou's banners in Genshin Impact's update 3.6.

Dori is an Electro healer in Genshin Impact and is seen as one of the worst units ever released. She is designed to offer teams Energy Recharge and healing but is an energy-hungry unit herself, which is counterintuitive. Her abilities are also clunky and not fun to use. Despite her fantastic visual design and references to Turkish culture, Hoyoverse failed to deliver in terms of gameplay. If you want to know more about Dori, here is a breakdown of her Talents, Constellations and Passives.

## Genshin Impact 3.6 - Dori: Should You Pull?

Dori is not worth pulling for gameplay reasons. If you want to pull for her due to reasons other than gameplay, feel free to do so. Unlike 5 stars, there is no guarantee that you will be able to snag a 4-star of your choice. There are instances of people spending over a hundred wishes and not getting the 4-star that they need so you should never pull for a low rarity unit unless you are okay with getting the featured 5-star or using up your pity.

## Genshin Impact 3.6 - Dori: Talents

**Elemental Skill - Spirit-Warding Lamp:** Troubleshooter Cannon: Directs a Spirit-Warding Lamp to fire off a Troubleshooter Shot at opponents, dealing Electro DMG.

After the Troubleshooter Shot hits, it will create 2 After-Sales Service Rounds that will automatically track nearby opponents and deal Electro DMG.

- Cooldown: 9 seconds

**Elemental Burst: Alcazarzaray's Exactitude:** Summons forth the Jinni within the lamp to give the client various kinds of aid.

### Jinni

Connects to a nearby character. The connected character will:

- Continuously restore HP based on Dori's Max HP.
- Continuously regenerate Energy.
- Be affected by Electro.

When the connector between the Jinni and the character touches opponents, it will deal one instance of Electro DMG to them every 0.4s. Only one Jinni can exist at a time.

- Cooldown: 20 seconds
- Duration: 12 seconds
- Energy Cost: 80

## Genshin Impact 3.6 - Dori: Constellations

**C1 - Additional Investment:** The number of After-Sales Service Rounds created by Troubleshooter Shots is increased by 1.

**C2 - Special Franchise:** When you are in combat and the Jinni heals the character it is connected to, it will fire a Jinni Toop from that character's position that deals 50% of Dori's ATK DMG.

**C3 - Wonders Never Cease:** Increases the Level of Alcazarzaray's Exactitude by 3. The maximum upgrade level is 15.

**C4 - Discretionary Supplement:** The character connected to the Jinni will obtain the following buffs based on their current HP and Energy:

- When their HP is lower than 50%, they gain 50% Incoming Healing Bonus.
- When their Energy is less than 50%, they gain 30% Energy Recharge.

**C5 - Value for Mora: Increases the Level of Spirit-Warding Lamp:** Troubleshooter Cannon by 3. The maximum upgrade level is 15.

**C6 - Sprinkling Weight:** Dori gains the following effects for 3s after using Spirit-Warding Lamp: Troubleshooter Cannon:

- When Normal Attacks hit opponents, all nearby party members will heal HP equivalent to 4% of Dori's Max HP. This type of healing can occur once every 0.1s.

## Genshin Impact 3.6 - Dori: Passives

**An Eye for Gold:** After a character connected to the Jinni triggers an Electro-Charged, Superconduct, Overloaded, Quicken, Aggravate, Hyperbloom, Electro Swirl, or Crystallize reaction, the CD of Spirit-Warding Lamp: Troubleshooter Cannon is decreased by 1 second. This effect can be triggered once every 3 seconds.

**Compound Interest:** When the Troubleshooter Shots or After-Sales Service Rounds from Spirit-Warding Lamp: Troubleshooter Cannon hit opponents, Dori will restore 5 Elemental Energy for every 100% Energy Recharge possessed.

**Per Spirit-Warding Lamp:** Troubleshooter Cannon, only one instance of Energy restoration can be triggered and a maximum of 15 Energy can be restored this way.

**Unexpected Order:** Has a 25% chance to recover some of the materials used when crafting Character and Weapon Materials.
